Délégation des compétitions d'informatique

Partnership Plan

About Us

La Délégation des Compétitions en Informatique is ÉTS's cybersecurity and hackathon club. We form teams to take part in computing competitions, attend conferences and organize competitions at ÉTS. We are here to provide an effective learning environment that develops a dynamic new generation of industry professionals. Through partnerships, the Computer Competitions Delegation aims to promote collaboration and encourage rewarding exchanges between students and industry professionals.
